## MISHIMOTO Temperature Gauge

[www.mishimoto.com](http://www.mishimoto.com)

A perfect replacement for your OEM radiator cap, the Mishimoto Temperature Gauge cap will provide increased pressure tolerance (1.3 Bar) while providing an accurate temperature reading of your coolant.

## SUPERPROX High Performance Sprockets

[www.supersproxusa.com](http://www.supersproxusa.com)

Supersprox-stealth is about longer life, without compromising weight. Primary goal: to last 3 times longer than aluminum and remain as light as possible. No concession, it's performance and function first and last.

## Ergo Wave Grips

Risk racing [www.riskracing.com](http://www.riskracing.com)

The New Risk Racing Ergo Wave Grips are a high quality, dual-compound, soft grip with a reinforced grip end and an ergonomically designed grip flange. The "wave" in the flange is designed to reduce pressure and heat on your hands to reduce blisters. Say goodbye to "Yama-thumb"!
