

MMOC-PF Instructions

MISHIMOTO

BILL OF MATERIALS		
PART NUMBER	DESCRIPTION	QUANTITY
MM1730-01-XX	FITTING	1
MM1730-02-XX	FILTER	1
MM1730-03	BODY	1
ORC-200-16-V-75	O-RING	1
ORC-200-19-V-75	O-RING	2

Install:

1. Lubricate the mating surfaces and threads of the fittings.
2. Install the In-Line Pre-Filter in the correct orientation.
3. Tighten the hose end connections to the In-Line Pre-Filter.

Maintenance:

1. Routine maintenance of the In-Line Pre-Filter is suggested to ensure component longevity.
2. Remove the In-Line Pre-Filter, then disassemble and inspect all its components.
3. Use a non-chlorinated brake parts cleaner, spraying from the inside-out, to clean the filter element.
4. Reassemble the In-Line Pre-Filter according to the diagram above, then reinstall it.
