DISCLAIMER

- Allow vehicle to cool completely prior to attempting installation.
- Mishimoto is not responsible for any vehicle damage or personal injury due to installation errors, misuse, or removal of Mishimoto products.
- Mishimoto suggests that a trained professional install all Mishimoto products.

INSTALL PROCEDURE

1. Remove the engine cover. Lift the front first. The cover is connected to four pegs, two at the front and two at the back.
2. Remove the PCV hose from the vehicle. (2x spring clamps)

3. Remove the top bolts that secure the fuel line connector bracket to the firewall. (2x 10mm bolts)

4. Attach the fittings to the catch can. Snug them down with a wrench.
5. Secure the catch can to the bracket using the hardware provided in your kit. (3x 2.5mm Allen head bolts)

6. Slide the long section of the bracket behind the connector bracket. Secure it with the provided bolts and washers from your kit. (2x 10mm bolts, 2x washers)

7. Slide the clamps from your kit onto the hoses to prepare them for installation. The larger clamps go on the catch can side.

2018+ HONDA ACCORD 2.0T BAFFLED OIL CATCH CAN, PCV SIDE INSTALLATION GUIDE

8. Install the hose without a check-valve. One end attaches to the catch can OUT port. The other end goes to the intake valve. (2x spring clamps)

9. Install the check-valve hose. One end attaches to the catch can IN port. The other end goes to the port on the intake manifold at the back of the engine. (2x spring clamps)

10. Reinstall the engine cover. Be sure to engage all four pegs.

**Congratulations! You have finished
installing the Mishimoto 2018+ Honda
Accord 2.0T Baffled Oil Catch Can.**
