INSTALL DIFFICULTY 🛠️🛠️🛠️🛠️🛠️

DISCLAIMER

- Raise vehicle only on jack stands or on a vehicle lift.
- Allow vehicle to cool completely prior to attempting installation.
- Do not run the engine or drive the vehicle while overheating; serious damage can occur.
- Please dispose of any liquids properly.
- Mishimoto is not responsible for any vehicle damage or personal injury due to installation errors, misuse, or removal of Mishimoto products.
- Mishimoto suggests that a trained professional install all Mishimoto products.

INSTALLATION INSTRUCTIONS

- 01.** Disconnect the mass airflow (MAF) sensor. To separate the connector, slide the red locking tab down, then depress the black tab and pull the connector off the sensor.

- 02.** Loosen the clamp that secures the stock intake hose to the airbox. (1x worm-gear clamp)

- 3.** Loosen the clamp that secures the intake hose to the turbo charger inlet. (1x worm-gear clamp)

- 4.** Remove the intake hose from the vehicle by pulling it off the turbocharger inlet and airbox.
- 5.** Slip one of the provided worm-gear clamps over each end of the Mishimoto induction hose, and connect it to the turbocharger inlet and the airbox. Tighten the clamps to secure it. (2x worm-gear clamps)
- 6.** Reconnect the wiring harness to the MAF sensor, and secure the connector with the locking tab

Congrats! You just finished installing the 2016+ Titan XD Induction Hose.
